INDEX

This is the annual index for DATA PROCESSING DIGEST for the year 1976, Vol. 22, Nos. 1-12. The index is divided into three sections: the list of titles as they appeared in the Digest, a list of the authors, and a subject index. All articles are cited by one or more subject words. The numbers following the alphabetical entries indicate issue and pages in which the item is found. The number preceding the hyphen is the issue; the numbers following the hyphen are the pages.

Title

About the New Copyright Law, 12-21
Abuses Detected, Corrected Through Computer System, 1-1
An Accounting Analysis Of Management Information System Costs: A Case Study, 5-4
Accounting and EDP — Editorial, 5-16
Accounting and the EDP Cost Charge Back, 7-18
Accounting For Computing, 12-5
ACM Transactions On Database Systems, 6-9
ACPA-5 Conference Proceedings, 4-11
Acronyms, Initialisms, and Abbreviations Dictionary, Vol. 1, 11-25
Action Moved From Computer Room, 3-7
ADAPSO Identifies Industry Programs For 1976, 7-36
Add Flexibility To Your Control System With Distributed Data Processing, 6-11
Add On To the Computer, Subtract From the Bill, 10-15
ADP Contracts: Buyer Beware! 10-2
ADP Metrics: Converting Now Can Help Your Center To Gain a Competitive Edge, 12-18
AEDS Proceedings: Discovery — New Worlds of Educational Data Systems, 1-21
An Agenda For the National Commission On Electronic Fund Transfers, 2-19
AICPA Timesharing Program Library Available, 2-5
Air Force "Kernel" Attains Computer Security Using Existing Technology, 11-3
Alphanumeric Display Terminals, 3-20
Analysis Of Enacted EFTS State Legislation, 4-17
Annotated Bibliography Of Automation In Libraries and Information Systems, 1972-1975, 11-25
Annual Bibliography Of Computer Oriented Books, 4-21
ANSI Publishes Basic, Fortran Standards, 6-3
ANSI/X3/SPARC Study Group On Data Base Management Systems Interim Report 75-02-08, 4-10
Anything New In Data Base Technology? 7-2
APL: The Language and Its Usage, 4-19
Application Risk Index, 8-8
The Application Study, 5-22
Appraising Secondhand Computers — There's More To It Than You Might Think, 3-2
An Approach To Structured Analysis, 12-6
Approaches To Network Design, 9-6
Assessment Of System Performance In Computer Selection Evaluations, 9-1
The Association Of Data Communications Users, 4-17
Association Of Time-Sharing Users Directory, 12-20
Assuring Computer Software Quality, 9-9
Audio Techniques For Program Documentation, 1-7
Audit Software Package Evaluation, 10-22
Auditing a Data Center, 6-15
Auditing and Job Accounting Data, 8-23
Auditing the Computer Center, 10-5
An Auditor Looks At Integrated Data Processing, 4-15
Auditors' Role In ADP Systems Design: The Participatory Approach, 7-13
Auerbach Data Base Management, 8-35
Auerbach Guide To Intelligent Terminals, 8-35
Automated Claim System, 3-14
Automated Files Give Church Control Of Mailing Lists, 6-20
Automated Liquor Distribution Pays Off Five Ways, 1-2
Automated Productivity Information — Necessity Not Luxury, 5-21
Automated Purchase Order Management, 4-4
Automated Utilization Review Is Timely, Accurate, Efficient, 9-11
Automating the Commercial Loan Portfolio, 5-18
Automation Alternatives For Small Trust Departments, 1-4
Avoiding the Agonies Of Trust Automation, 5-20

Back-Office Terminals To Relieve Brokers' Overworked Mainframes, 8-29
Backtracking, 3-8
Backward Chaining: An Effective Means Of Teaching Computer Programming, 10-23
Bank Planning To Keep 10 Million Accounts Current, 5-18
Banks Would Rather Switch To Distributive DP Than Fight Rising Costs, 10-11
BASIC: A Programmed Text, 4-19
Battle Of the Giants, 10-14
B.C. Weathermen Aided By Computer, 8-30
Bench the Benchmarks, 2-8
Better Deal From Carriers Or Utilities? 1-8
Better Distribution Planning With Computer Models, 9-9
Bibliography Of 1975 Performance Literature, 5-6
A Bibliography On System Performance Evaluation, 1-14
Bill Of Materials Program Speeds Production Control Processing, 7-24
BITS, The Bulletin Of the Information Technology Service, 9-3
A Blueprint For Generalized Computer Audit Systems, 11-22
Books Useful In Teaching Business Applications Of the Computer, 4-21
Bracketing, 3-8
Brazil's Top Airline Nets Message-Switch Cost Through Savings, 5-25
A Bright Idea — An Integrated COM and On-Line CIS, 6-20
Britain's Packet Switching Experiment, 5-24
Budgeting For EDP, 11-23
Build Program Technique: Objectives, Processes and Practices, 8-3
"Building-Block" Approach Leads To Computerized Traffic Control System, 8-31
Bulk Order Picking, 2-12
Bureau Reverts To Off-Line Data Entry, 8-30
Business Needs a New Breed Of EDP Manager, 5-3
But the DSK Lives On. . ., 1-23

The Cable Bus In Data Communications, 10-12
CABLE Puts Frisco's Patrolmen On-Line To Crime File Hierarchy, 10-10
C.A.I. System To Teach Introductory Computer Programming, 7-30
Calculating DP Cost/Benefit Relationships, 7-16
Can a Computer Help Select the Right Store Site? 2-11
Can an Emulating Computer Infringe a Patent? 7-34
Can APL Work As a Business Language? 5-12

REFERENCE LIST

The staff of Data Processing Digest regularly monitors more than 180 computer, trade, and management periodicals for appropriate articles to digest each month. Every June issue and December Index Supplement includes all the publishers' addresses for your convenience. During other months of the year, only the periodicals referenced in that issue are given. We ask you to please request copies of originals from the publisher of the periodical, rather than write to Data Processing Digest, as we do not copy or reprint, and your request would be delayed. Books should be ordered from their publishers or from a local technical book store.

DATA PROCESSING DIGEST-3 EDITIONS

ENGLISH LANGUAGE EDITION

The monthly abstracting service which has served the computer industry since 1955 by searching business, industrial, educational, and scientific literature for good material, then condensing it into concise digests for quick reading and easy research.

MICROFICHE EDITION

The English Language Edition of Data Processing Digest is published quarterly in microfiche. Each fiche contains the previous three months of DPD. The fourth quarter includes the yearly index.

SPANISH LANGUAGE EDITION

Written especially for Mexico, Central and South America, this edition reflects the computer information requirements of those countries. Contains essentially the same information as the English Language Edition.

MORE RESEARCH AIDS FROM DPD

THEME/PAKS

Collected abstracts from Data Processing Digest on a particular subject:

1. **Minicomputers, 1969-1975.** Eighty abstracts and book reviews on minicomputers, with complete references to original abstract in DPD and original source article, bound in a 3-ring book.
2. **Structured Programming.** All the digests from DPD on the subject of structured programming since their first appearance in the literature, plus additional references. Includes reference to DPD as well as original periodical. In booklet form.
3. **Data Base Management Systems.** Fifty-four digests from DPD beginning in 1974, plus a list of all previous references on data bases, and additional references researched especially for this report. Addresses of publishers and index are included. In booklet form.

OUR GUARANTEE

If you are not completely convinced that DATA PROCESSING DIGEST will be helpful to you, cancel your subscription, and we will return the unused portion of your subscription fee at once.

I want DPD to be my personal on-call research staff. Please send my first copy by return mail.
